

# Organisation Use Fee

## What is it?

Think of it as a **cap** on how much is chargeable for one **single organisation** for **all** of its **own** PAF® licensing from a single [Solutions Provider](#).

## How does it work?

It's a simple way of capping PAF licence fees applicable to an [End User](#) who uses PAF itself and on its website.

Several Fees options are available to an End User:

- [Users](#)
- [Multiple User Block](#)
- [Transactions](#)
- [Website Use](#)

which (apart from Website Use) are **uncapped**.

The Organisation Use Fee allows a single fee to be charged for all an End Users use.

So	<b>Unlimited Users</b>
Plus	<b>Unlimited Transactions</b>
Plus	<b>Unlimited Website Use</b> (including High Use Threshold)
All for	<b>£20,600 per year for PAF</b>
	<b>£2,436 per year for Multiple Residence</b>
	<b>£2,436 per year for Not Yet Built</b>

Organisation Use does not cover fees for [Bureau Services](#) and [Closed User Group](#).

- This is for:
- **one single End User**
  - **per Solutions Provider (Licensee)**
  - **per year**

See Schedule 2 paragraphs 2(n) and 2(o) of Solutions Provider Agreement or Schedule 2 paragraph 2(l) of direct End User Agreement.
