

Organisation Use Fee

What is it?

Think of it as a **cap** on how much is chargeable for one **single organisation** for **all** of its **own** PAF® licensing from a single [Solutions Provider](#).

How does it work?

It's a simple way of capping PAF licence fees applicable to an [End User](#) who uses PAF itself and on its website.

Several Fees options are available to an End User:

- [Users](#)
- [Multiple User Block](#)
- [Transactions](#)
- [Website Use](#)

which (apart from Website Use) are **uncapped**.

The Organisation Use Fee allows a single fee to be charged for all an End Users use.

So	Unlimited Users
Plus	Unlimited Transactions
Plus	Unlimited Website Use (including High Use Threshold)
All for	£25,000 per year for PAF
	£2,900 per year for Multiple Residence
	£2,900 per year for Not Yet Built

Organisation Use does not cover fees for [Bureau Services](#) and [Closed User Group](#).

- This is for:
- **one single End User**
 - **per Solutions Provider (Licensee)**
 - **per year**

See Schedule 2 paragraphs 2(n) and 2(o) of Solutions Provider Agreement or Schedule 2 paragraph 2(l) of direct End User Agreement.
